Fourth of July Flip Flop Wreath

1. Place your wire wreath flat on the table and carefully glue a flip flop with the toe facing right (all flip flops will be facing the same direction). The glue will only hold long enough for you to turn the wreath around and tie the bottom of the thongs to the wire wreath.

2. Lay your next flip flop with the toe overlapping the flip flop behind, glue the top flip flop to the bottom one, turn your wreath back over and tie the flip flop in place.

3. Keep gluing and tying the flip flops on top of each other until you reach the flip flop where you started.

4. Carefully remove the flowers from the stems and glue the flowers to the flip flops.

5. Now your wreath is ready to hang on the front door.

Supplies

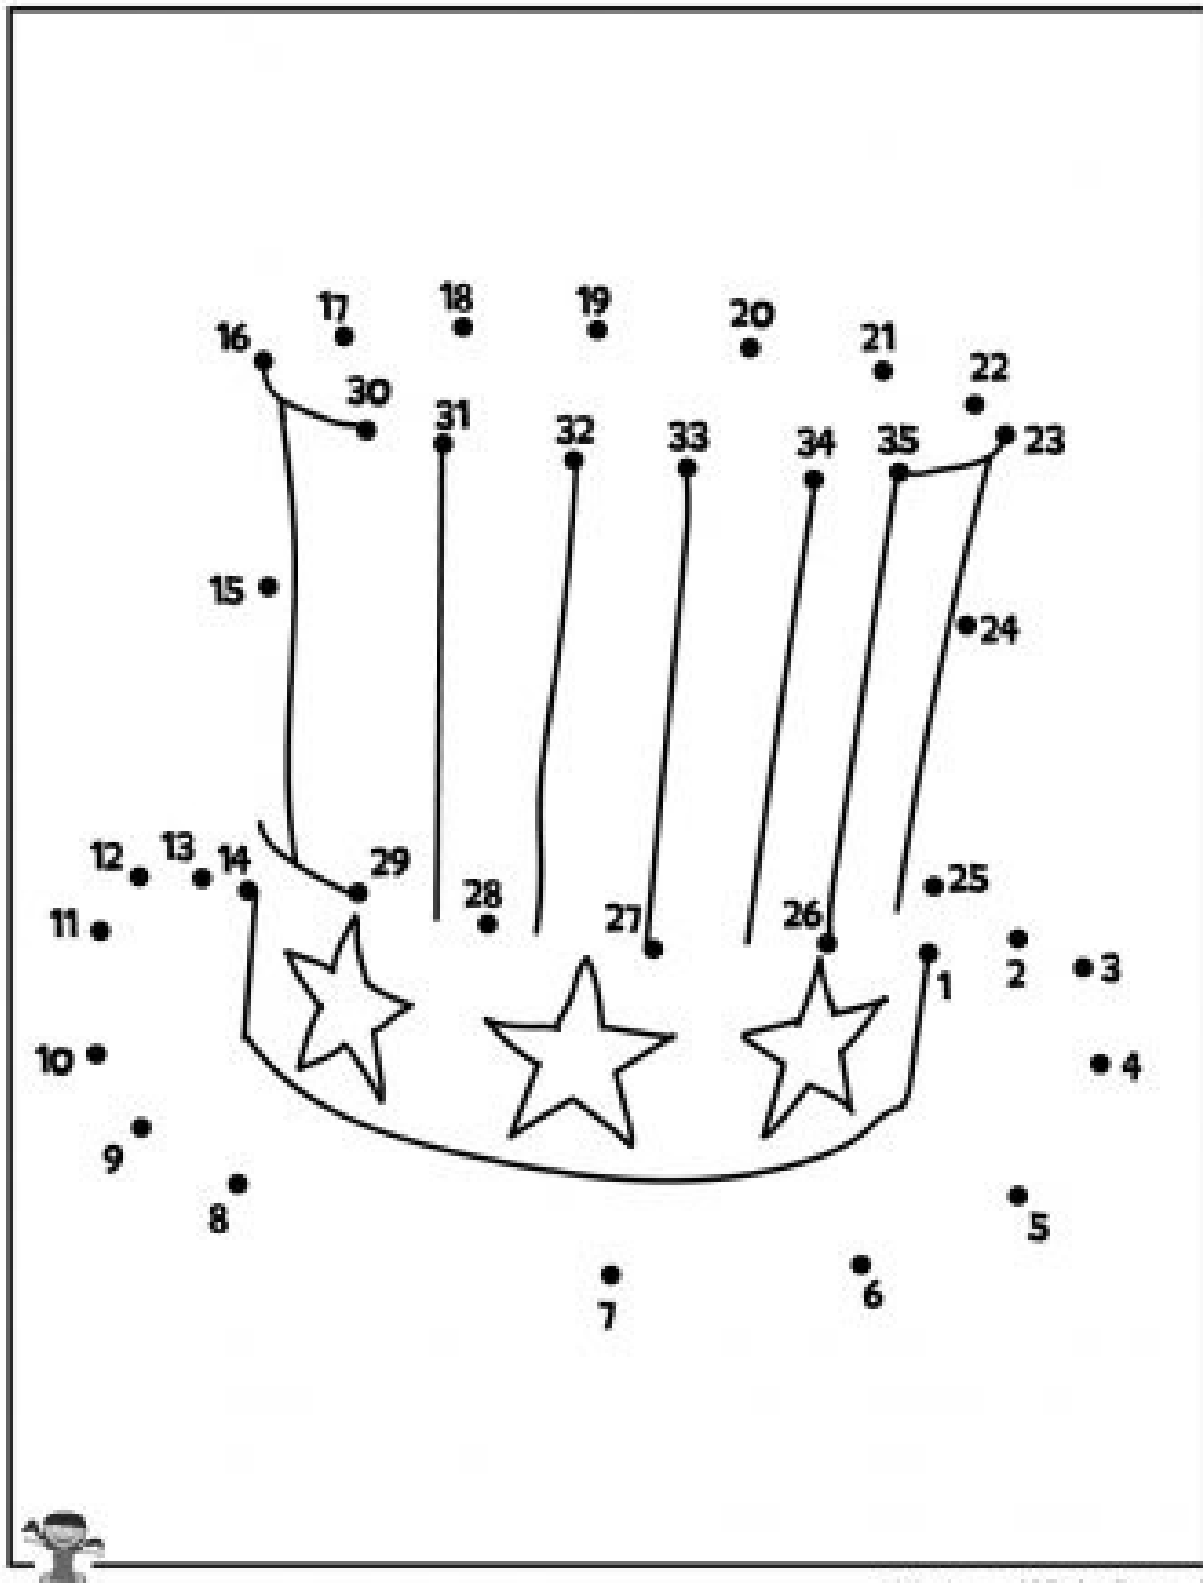

- 12 in. Wire Wreath
